

PROJECT OVERVIEW

Education is a fundamental human right and it is one of the most crucial factors influencing an individual's ability to develop to their full potential in life. Access to and completion of an adequate education provides numerous opportunities for individuals, families and whole communities.

We are working in partnership with Global Development Group (GDG) to raise funds for Bethel International Training College (BITC) in order to construct a new training centre and preschool facility.

One of the most effective ways to empower men, women and children in Papua New Guinea (PNG) is through education. Therefore, we are embarking on this new project to equip people from PNG and beyond.

The major objective of this three-year project is:

To have a fully functioning educational facility that will empower men, women and children through the provision of early childhood education and vocational training.

We have developed three main goals that we are aiming to achieve within this project.

GOAL ONE

Construct an educational facility that will be used for a preschool and vocational training.

The outcome of this goal is to have a fully functioning educational facility that is equipped with furniture and resources needed to run a preschool and vocational training.

GOAL TWO

Empower men and women through the provision of vocational training courses.

The outcome of this goal is that men and women are provided with an opportunity to gain valuable training that will increase their employability and improve their livelihoods.

GOAL THREE

Empower children through the provision of early childhood education.

The outcome of this goal is that by accessing quality preschool education, children are better prepared for primary school and are more likely to reach higher educational outcomes.

Bethel International Training College is a partner for project J1098N Bethel International Training College PNG with Global Development Group (ABN 57 102 400 993), an Australian NGO approved by the Minister for Foreign Affairs.

Tax deductible receipts for gifts over \$2 with a preference for this approved development project will be issued by Global Development Group for project J1098N. If funds raised exceed the requirement for this project, funds may be directed to another approved activity.

Please note, no non-development (evangelistic, political or welfare) activities are a part of, or funded by, GDG projects.

FROM OUR LEADERS

The long awaited vision is becoming a reality. The prophet Habakkuk states "the vision is for an appointed time, though it is slow in coming, wait for it because it will surely come to pass."

For years we have taught under poor conditions and have faced constant threats of flooding. Soon we will have an excellent environment for the teaching and training of students, as well as proper facilities for Zoom lectures and visual presentations.

This facility will include offices for our course principals, and a preschool that will be open to the community and will provide our preschool teachers with practical experience.

From Pr Barry Silverback
International Missions Director of CRC Churches International

Training is one of the four pillars of the vision of Bethel Christian Centre and on a wider scale, of the CRC in PNG.

Training at Bethel has played, and continues to play, a vital role in the expansion of the work in PNG and the nations that Bethel is involved in around the world.

With the inception of the work at Bethel in the early 1970s up to now, training at Bethel has seen the development and growth of national and international workers who have come through its training programs.

Bethel has trained pastors, leaders, workers long and short term missionaries, missions supporters and senders, as well as missions promoters. People have come from

all over PNG, nations outside PNG, a range of different Christian denominations, the secular field and private sectors within PNG.

The training facilities at Bethel have deteriorated over the years. This new facility that is currently being built - a double storey building with six classrooms - will enhance the training program and the expansion of the work in PNG and beyond.

Bethel Pastoral Oversight and the team are very thankful to the Lord to be able to see this project being fulfilled. We pray that this project will continue to help fulfil the vision of the CRC movement in the years to come.

From Pr Ai Wari
Senior Pastor at Bethel Tabernacle of Praise, Papua New Guinea

BUILDING PLANS

We would like to express a massive thank you to Adelaide Christian Schools for providing us with the plans for our building. The floor plan below shows both levels of the building. The area marked 'Classroom 01' will be used for our preschool. This will be closed off from the rest of the building to cater to regulations surrounding the running of preschools. The remaining areas will be used for classrooms under BITC. The classroom building pictured below is located at Sunrise Bethel Christian School in Port Moresby, PNG. This will be the same building built during this project.
