NATONAL MATONAL MISSIONS DAY Sunday 26 July, 2020

ONLINE GIVING AND COMMUNICATION CONTACT DETAILS

The focus for the offering on the CRC's National Missions Day for 2020 is online communication.

CRC Churches International is a heavily missions-focused movement and we are established in various nations around the globe. However, due to the coronavirus pandemic, international travel has been tremendously affected. This ultimately prohibits the ability of many of our pastors and people traveling between our various fields for ministry and relationship-building purposes.

This current situation has encouraged a new move toward online communication between our CRC family. Online mediums enable our pastors, particularly Pr Barry Silverback, to teach, train, disciple, preach and minister from afar. They have played an important role in helping everyone stay connected during this time.

On Sunday 26 July there will be an opportunity to invest in this ministry through an offering received in each local church (online or in person). Funds raised will go towards the purchasing of the essential equipment needed to maximise the use of Zoom calls, and other online forms of communication, across our CRC fields, such as the Philippines, Papua New Guinea, Ghana and India among others.

In addition to equipment, funds will also go towards efforts to improve internet connections across the nations. Many of our fields have insufficient internet connection which impacts the effectiveness of online communication. If you would personally like to give towards the National Missions Day offering you are encouraged to make an online deposit into the CRC Missions International account.
